It is a combat strategy game and players can create their own fort on a Pacific island and attack enemy islands in exciting massive battles. Fight an epic war against the evil black guard. Take your expeditionary strength to beautiful paradise islands invaded by the enemy, and unlock the secrets of this tropical paradise. Fight for every beachhead, free slave islanders and explore the unknown archipelago. The fight becomes a race to take advantage of the ancient powers hidden in the islands. The gameplay is very similar to Clash of Clans: players have to create their own base near the beach of their own island and attack enemy islands in order to get a variety of rewards. In Boom Beach, you can also fight other players online. Just attack your islands and try to overcome your defenses with your troops. In Boom Beach, players will find more than ten different types of defensive buildings and different attack units. They can be combined in a triad in different ways in order to achieve the best balance between attack and defense. As a strategic Supercell style game, Boom Beach needs to be run online with the Internet. The game is free to download and play. However, some in-game items can also be purchased for real money. If you do not want to use this feature, please set up password protection for purchases in your Google Play Store app settings. FEATURES - Play with millions of other players, Raid hundreds of enemy bases for loot - Battle for control of precious resources to upgrade your base against enemy attacks - Explore a huge tropical archipelago and discover the mysterious power of Life Crystals - Take on fearsome black bosses and discover their evil plans - Join other players to form other players an unstoppable working group to take on cooperative missions We think you may also like the Games : TEKKEN™, Blank point: Strike, and Bang Bang mobile legends, ect. And now in the case: the evil enemies captured the paradise island and terrorized the local population. You will have to go to explore the archipelago, study it, build relationships with Aboriginal people and liberate the beaches and the whole island! During the game, the battle will become a fight for possession of ancient magical powers that hide in the local lands. With thousands of other players, attack hundreds of bases on the island and fight evil bosses. Only in your power, perhaps, confuses his evil plans and saves the ancient crystals of life. Download boom beach private server for Android with an unlimited diamond mod and coins can be from our site. Boom Beach - an exciting Strategy game created by the developers of Clash of Clans. Players will get their personal Peninsula, have to deal with their development and attack the enemy side, capturing their islands. The game is practically identical Clash of Clans, where you will be given the main base, which you will have to improve, extracting a variety of resources. As in each similar strategy, actions and modifications need a certain period of time, for this reason, the game is very addictive, it will play more than a month. All buildings are divided into several options: Support - there are several improvements; Economy - here players will find buildings that provide them with resources and protection - a defensive structure that helps repel enemy attacks. When players can equip their main base, they will immediately fall into the hurricane of the hellish apocalypse, fighting with other players. It is possible to attack the shores of other players, for victorious success in battles you will be given resources and you can have fun perfectly. The offensive takes place landing their troops on the enemy's edge, two cargo ships and an artillery ship. As your attacking unit rushes into the attack, you can control your armed fighters by massively destroying the main enemy objects. A wonderful strategy with unusual addictive gameplay, containing online and single player. Boom Beach – Childhood of many people who have used the Windows XP operating system may refer to the game Beach Head. As a shooting simulation game, Beach Head has won tens of thousands of players. At the time, Beach Head was probably considered a legend. Also based on the idea of building base and operations on the coast, Supercell has officially released the game Boom Beach for the user. However, if the game is similar to Beach Head, Boom Beach is tricky to overcome the shadow of the advance. Therefore, Supercell has invested in details to make this game a more enjoyable and engaging experience. In the default mode, you'll face the hostile black guard. He's a monster who's kidnapped a lot of innocent people on the island to eat meat. Your mission is to destroy it, to rescue all people. You'll be the commander of an army fighting the evil Black Guardian. Build a powerful army and be free enough to ambush and destroy the enemy base. Your goal is to be on their shores. However, to ensure a successful battle, your army needs to be much stronger. Players need to collect materials and money to improve their base as well as battle soldiers to increase their strength. Training skills needed so that the army can support each other and complete separate tasks. To update the base, it will take a lot of time. In the meantime, you can take advantage of the tasks and get a reward. A good commander must capture and distribute forces to spy on the enemy, only attack well, good defense. Use your elastic force matchmaking tactics to take part in the battle; Victoria Victoria come to you. Don't forget that in addition to the classic mode as mentioned above, the game also allows you to join PvP with all the other players. Then you need to prepare everything, take the ship to the sea and fight with the enemy. If you win, you'll gain a lot of resources. But if you lose, you will lose and rebuild your empire. Graphics Boom Beach has a style of 3D graphics, quite familiar with the strategy game. The effect is smooth; the details are well represented, well reversed. Huge maps and house effects, scenes... they are very bright and beautiful. The easy-to-use, top viewing angle full control interface helps players capture most aspects of battle. Overall, the game graphics as excellent, good full quality and stability. Highlights coming to Boom Beach, players will embark on a beautiful adventure on the tropical island. It contains a lot of rare treasures, but it's also full of dangerous PvP traps online with millions of other players around the world. You can attack the enemy base, even your friends at any time. On the contrary, they can also ask you at any time. Even if you're not online. Team up with your friends and kill monsters in the game. The greatest enemy is the Black Guard. A dangerous monster has lived on the island for thousands of years. Don't worry if you don't know who broke your base, the game offers a replay feature that allows players to watch all battles online and offline. Summary If you're a fan of strategy shooters, then Boom Beach will be a good choice for you. Elegant and exciting gameplay and beautiful graphics, promising to bring moments of pleasure and the battle of virginity. The game is free, quick download to enjoy the best. You are now ready to download Boom Beach for free. Here are some notes: Please refer to our installation guide. To check the CPU and GPU of your Android device, use the CPU-Z app
